Pharmaceutical Chemistry Department

Postgraduate Courses and Programs

Computer Aided Drug Design; Code: PHC 704

Basic Information

Programme(s) on which the course is given:	Master Degree in Pharmaceutical Sciences (Pharmaceutical Chemistry)
Department responsible for offering the course:	Department of Pharmaceutical Chemistry
Department responsible for teaching the course:	Department of Pharmaceutical Chemistry
Academic year:	Master Preliminary year /2nd Term
Course title and code:	Computer Aided Drug Design; Code: 704
Contact hours (credit hours):	Lecture: 3 (3), Total: 3

Overall Aims of Course

Upon successful completion of this course the students have:

- Extensive knowledge concerning Unix operating system,
- Molecular modelling using Accelrys software.
