Pharmaceutical Chemistry Department

Postgraduate Courses and Programs

Structural Elucidation of Chemical Entities; Code: PHC 702

Programme(s) on which the course is given:	Master Degree in Pharmaceutical Sciences (Pharmaceutical Chemistry)
Department responsible for offering the course:	Department of Pharmaceutical Chemistry
Department responsible for teaching the course:	Department of Pharmaceutical Chemistry
Academic year:	Master Preliminary year /2nd Term
Course title and code:	Structural Elucidation of Chemical Entities; Code: PHC 702
Contact hours (credit hours):	Lecture: 3 (3), Total: 3

Overall Aims of Course

After attending the lectures the students will be capable of independently using the different spectroscopic methods to elucidate the structures of organic compounds.
