### Honesty and Integrity

Students with honesty and integrity will work hard to earn their degrees and will always adhere to the moral and ethical principles. Cheating compromises these core values

### Responsibility

Responsibility, assisted by the discipline, will allow students to take the right actions to achieve all duties and tasks on time. Abiding to this core value will create a well-established environment where students can learn and gain knowledge in an environment devoid of chaos and disorder.

### Competency and Academic Excellence

FOPASU aims at providing Pharmacists of the highest quality with all the qualifications, which enable them to compete both nationally and internationally.

### Innovation and Creativity

The goal of FOPASU is not to create stereotypes but rather competent students who are able to innovate. Their creativity is respected and encouraged in every course and activity in the Faculty of Pharmacy.

### Collaboration and Teamwork

Collaboration improves the student's ability to work together and improve their performance as well as their morale. Students of the same team must actively listen to each other, share ideas, experiences and opinions. Together we can achieve the best possible outcome of any work, boosted by the students' open-mindedness, respect to others and tolerance towards other ideas, feelings, habits
