

Microbiology Department Postgraduate Courses

Diploma Degree of Microbiology and Immunology Program

General Microbiology
Immunology
Virology
Microbiological quality control of pharmaceuticals
Basic Molecular Biology
Diagnostic Microbiology
Mycology
Selected Topics in Microbiology & Immunology

Diploma Degree of Biotechnology Program

Microbial physiology
Microbiological quality control of biotechnological products
Principles of fermentation technology
Molecular Biology and genetic engineering
Production of pharmaceuticals by fermentation
Production of Biological by fermentation
Advanced Bioinformatics
Selected Topics in Biotechnology

Master's degree of Microbiology and Immunology Program

Infectious Diseases
Advanced Immunology
Microbiological Quality Control
Industrial Microbiology
Marine Microbiology
Biosafety and Microbial Diversity
Selected Topics in Microbiology & Immunology
