

***Experimental and
Advanced Pharmaceutical
Research Unit***

EAPRU

EAPRU

**Experiments and Advanced
 Pharmaceutical Research Unit**

Vision:

To be one of the best international centers in the field of pharmaceutical studies.

Mission:

- To provide the best possible analysis while maintaining full compliance with all regulatory requirements.
- To ensure the most accurate and reliable results.

About us :

Experiments and advanced research unit EAPRU was established at the Faculty of Pharmacy Ain Shams University with the acceptance of Supreme council of universities in 27 / 10 / 1997 EAPRU is a certified research unit by CAPA specialized in the field of pharmaceutical science.

Our center is supplied with a high advanced equipments and devices. Our team includes highly qualified analytical and clinical investigators having Ph.D., Master degrees and Clinical Diplomas. We

Services

- Experiment
- Advanced
- Pharmaceutical
- Research
- Unit

Bioanalysis

- Method validation.
- Drug and metabolite determination in biological fluids
- Biowaivers and comparative in-vitro dissolution.

Bioequivalence and Bioavailability Studies which complies with FDA and Egyptian guidelines.

- Drug determination in biological fluids.
- Pharmacokinetics and Statistical Data Evaluation.

Clinical Studies

- Ensure safety of volunteers during bioequivalence studies.
- Provide first aid kits in case of adverse effect.
- Volunteer counseling.

Microbiological analysis

- Microbial count of dosage form.
- Sterility testing of sterile dosage forms.

Training and continuing pharmaceutical education
